## DB 10

When you prefer two wheels over four, the world of motocross is precisely where you want to be. And introducing your young rider to that world starts with owning a Tao Motor DB10. Its perfect compact size and electric start make it the ideal choice for first time riders to quickly acclimate while building up their skill level and independence.

Our reliable 107cc four-stroke engine paired with automatic transmission means plenty of smooth riding without any stalling. Durable off-road tires and new decal designs give this bike an edgy competitive look, just like larger bikes in the Tao Motor lineup.

Geared with a speed governor, no ride is too fast until proper skills have been learned. With a seat height of just 24 inches and front disk brakes, those smallest riders will ride like pro after just a few laps. No matter your experience level, the DB10 brings all the fun with memories that will last a lifetime.

# DB 10

## FEATURES
